DETAILED ACTION

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: for example, claim 15 is "a computer program product embodied in a computer readable medium" but there isn't any computer readable medium recites in the specification. It is not clear whether the computer readable memory is a disk storage memory or carrier wave...Appropriate correction is required.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claim 15 is rejected under 35 U.S.C. 101 because the claimed invention merely recited computer product embodied in a computer readable medium and the specification fails to disclose what kind of computer readable medium is. Therefore, claim 15 is directed to non-statutory subject matter.

4. Claims 23-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 23, lines 1-2 "an apparatus for repairing a memory comprising self-test circuitry" is not clear whether the apparatus comprising self test circuitry or the memory comprising self test circuitry; and

Line 1, the preamble of the claim is an apparatus for repairing a memory, but there isn't any means or device for repairing the memory that is recited in the body of the claim.

As per claims 24-29, these claims are also rejected because they dependent upon the rejected base claim.

5. Claims 1-14 and 16-22 are allowable.
6. Applicant's arguments with respect to claims 1-29 have been considered but are moot in view of the new ground(s) of rejection.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung My Chung whose telephone number is 571-272-3818. The examiner can normally be reached on Monday to Thursday.
